

DIE-CAST EMT TO EMT PULL ELBOWS

Silver

SKU: 402140

SPECIFICATION	DETAILS
Material	Die-Cast Zinc
Certifications	ETL Listed
Color	Silver
Available Sizes	1/2" (200 pcs) 3/4" (100 pcs) 1" (50 pcs)
Packaging	Depends on the size.

FEATURES & BENEFITS

The DYNOTECH Die-Cast EMT to EMT Pull Elbow is a 90-degree pulling elbow used to connect two sections of EMT conduit, creating a continuous raceway for electrical wiring.

- **Change of Direction:** It allows for a 90-degree bend in the conduit run, enabling the routing of electrical wiring around corners or obstacles.
- **Wire Pulling Access:** The removable cover provides a convenient opening to access the interior of the conduit, making it easier to pull wires through the bend.
- **Connection:** It connects two sections of EMT conduit, creating a continuous raceway for electrical wiring.
- **Code Compliance:** Pull elbows are designed to comply with relevant electrical codes, ensuring safe and reliable installations.
- Durable Galvanized steel construction for long product life.
- Zinc Die Cast locknut, Aluminum cover, Neoprene gasket, and (2) Slotted cover screws.
- Removable cover promotes easy wire pulling.
- (2) combination head set screws applicable with Phillips, Slotted or Square-Recess screwdrivers.
